**ATSSA  
FEB 8-10  
2015**

Tampa Florida location of the 2015 ATSSA Traffic Safety Services show. So what's new?

- Halo- 360 degree LED illumination to fit construction workers hard hat.
- Mechanical Barrel /Cone shifters (see pic).
- “Melt on demand” Thermoplastic ,Pre-melters.
- Single pass Coloured surfacing incorporating MMA base coat, aggregate application then top coat in one pass.
- Simple “hand” beaders for glass bead application.
- 8 Colour printers for road signs 10 yr ink warranty - no more computer cut !!??
- The following quote was engraved on the foot path on the “Tampa River Walk”  
**“Never tell people how to do things. Tell them what to do and they will surprise you with their ingenuity.” George Patton.** A provocative thought??  
“Are method based specifications and ISO Quality systems stifling creativity?? “”
